SOUTH PARIS

Mrs. John M. Murch

With only a few minutes warning, death came suddenly to Mrs. John M. Murch at her home on Gothic street, Saturday evening. While her health had not been good the past few years, no serious heart trouble had been known to the family.

Mrs. Murch was formerly Lupira J. Field, daughter of Samuel B. and Almira Parlin Field, born in Sumner in 1848. She was educated in the schools of that town. On Nov. 29, 1867, she became the wife of John M. Murch, a native of Paris, and settled in West Sumner. A year or so after they moved to Waterville and have resided in Lewiston, Augusta and other towns where Mr. Murch was a building contractor, secured work. They have lived in South Paris during the past eighteen years.

Mrs. Murch was a member of Wm. K. Kimball Circle, Ladies of the G. A. R. and a prominent worker in that organization.

Mr. and Mrs. Murch celebrated their fiftieth wedding anniversary on Thanksgiving evening, 1917, at Grand Army Hall when the family gathered for an occasion never to be forgotten. She leaves beside her husband four children, Ernest C. Murch, foreman in the Norway Advertiser composing rooms; Percy E. Murch, Grace A., wife of A. French Stevens, Arthur H. Murch all of South Paris, and E. H. Murch, who resides in the West. Three sisters survive, Mrs. Johanna Lawrence of Waltham, Mass., formerly of Bethel; Mrs. Lydia K. Barrett of Ridgelyville; Mrs. Lizzie Palmer of Rochester, N. Y.

Services for the family were held at her late home Tuesday afternoon at 2 o'clock, attended by Rev. C. G. Miller. Friends were given an opportunity to view their respects from 12 to 1:30 P. M. The ladies of the G. A. R. attended in a body. Burial was in Riverside Cemetery.

The bearers were Winfield S. Starbird, Henry H. Maxim, Franklin Maxim and Edwin I. Spofford.

Death Due to Forgetfulness
A decision has been rendered by the Public Utilities Commission in the case of the death on April 12 last of Alphonso Ritchie of Belfast, 24, who was instantly killed by an electric current while engaged in his usual occupation as an expert meter tester at Norway, finding that it was purely accidental, through his own momentary forgetfulness. The decision concluded: "It seems that Mr. Ritchie had been pulling the switch back and forth while he was working on his testing outfit, and it is probable that he had forgotten the fact that he had thrown the switch in only a minute or two before the accident occurred. It seems to be impossible otherwise to account for this accident, as Mr. Ritchie was a very bright and intelligent young man and had had considerable experience in the work in which he was engaged. He is reported to have been a most conscientious and hard working man, taking unusual interest in his work and had the reputation of being very careful and painstaking."

"You can fool a man, but you can't fool his cow!"

It is not the cost of a feed that is killing the farmer and reducing his profits. The real source of his trouble is his failure to run his cows to full capacity and feeding them right and decently. Cows that could give 40 lbs. of milk are running on a 20-lb. basis, and cows that could make 30 lbs. are running on 15.

The reason dairymen continue to use UNICORN is because they get enough more milk and enough more profit out of it to make it worth their while.

MY DAYS AND NIGHTS IN THE HOSPITAL

No. 6.

In my childhood days, the older people made much of signs in forecasting the weather and events, and some of them were deeply impressed upon my youthful mind. As I came to the years of understanding all such ideas were discarded and pure intellect has ruled, and from that time I have been a devotee of the mighty and noble and good. But all of my early impressions have not been eradicated. Some still move me when not aware of it. My heart is gladdened and I take courage if an important event like an election, for instance, takes place on a sunny day. On the morning before the battle of Austerlitz, Napoleon with his marshals was on a little eminence watching the movements of his troops going into position, when the sun rose filling the region with its radiance. He ordered his officers to their commands and before the day was over, Napoleon had won one of his most famous victories. Afterwards, when going into battle on a cloudless day he would often say, "Marshals of France, this is the sun of Austerlitz."

On reaching the operating room on the day I was to undergo the ordeal of my life the sun shone brilliantly through the glass windows, and turning to my faithful sons I tried to cheer them with, "Boys, this is the Sun of Austerlitz." No doubt I should have been much more depressed had the day been cloudy. On the day the test was made, of which I shall speak more particularly hereafter, the sun shone into my room and I repeated to myself as the Doctor was coming along the corridor: "This is the Sun of Austerlitz" and success, and so it proved. But of course the sun didn't have anything to do about it, except to banish somewhat depression of spirits.

One day, many years ago, I met on a train going into Lewiston, Mr. Holman, F. Day, former correspondent of the Lewiston Journal, and since an author of note. I showed him three dark stones that I had picked up on the beach at Peak's Island. They were very smooth and pretty. He was interested at once and said, "Ah, they are lucky stones." He took two out of his pocket which he said were lucky stones. Evidently he believed such stones when carried in the clothing would bring good luck. I think it simply a fad. However, I have prized my sea stones a little more, I believe, since Mr. Day pronounced them lucky. I may here say for the curious that I have been quite poor lately, Mr. Day had given up hard work some years ago, the farming being carried on by his sons, Fred and Arthur, who live at home.

Many people believe in dreams. I have dreamed of things never conceived of, of an event that no prior impressions could have been made in the mind to be later reproduced in dream. I believe it to be a proof of the independent action of the spirit, and consequently of the immortality of the soul. I had several remarkable dreams while in the hospital. One which was before my operation was that I had passed through the ordeal with success. The picture I have only partially retained. Many things that took place prior to that event I find now to be very hazy. On one occasion I dreamed of finding a bed of luscious strawberries, and at another time some of the largest blackberries near a wall, that I had ever seen. They were as big as the ball of my thumb. A boy and a man came into the field and pulled up all the bushes. In my disappointment and vexation I awoke. Whether this has any significance in dream I do not know.

No one has ever read the stories of Sylvanus Cobb, Jr., the Norway author, without being impressed with his belief in dreams. We discover the same thing in the writings of many other authors. Some dreams, perhaps, mostly waking ones, come true. Some never do, and it is well that they don't. I have been trying to recall the lineaments of the most curious dream that I had while at the hospital, but memory doesn't bring back the moving picture sufficiently to relate it here.

Why Pick On Your SHOE DEALER

It is a well known fact that tanners and most shoe manufacturers have taken enormous losses. One tanner alone lost \$6,000,000.00 last year. Shoe retailers all over the country are marking down their shoes to replacement cost. Nevertheless, the woods are full of amateur economists WHO CLAIM PRICES OF SHOES WILL SHORTLY RETURN TO PRE-WAR LEVELS, BUT WILL THEY? YES, THEY SURE WILL:—

When hard coal is back at \$9 per ton;
When railroad fares are back at 2c per mile;
When house rent is back at \$10 per month;
When gasoline is back at 10c per gallon;
When telephones are back at \$1 per month;
When a square meal is back at a quarter;
When farm labor is back at \$25 per month;
When gas is back at 90c;
When shaves are back at 10c;
When the freight from N. Y., now \$1.84, is back at 97c;
When street car fares are back at a nickel;
When money is back at 5 per cent;
When cooks are back at \$5 per week;
When hair cuts are back at a quarter;
When movies are back at a nickel;
When a car-wash is back at a dollar;
When ice cream is back at a dime;
When a doctor's call is back at one buck;
When a newspaper is back at a penny.

For the love of Mike, why expect the manufacturer, wholesaler and retailer of shoes to go the route alone? Aren't we Americans all in on this proposition together? Haven't we got to work it out together? Well, then, haven't the manufacturers, wholesalers and retailers of shoes gone much faster and much farther than the average in reducing prices and making readjustments? WE'LL SAY THEY HAVE. We're ahead—way ahead of the procession. Now let the barbers and the movie houses, and the Standard Oil, and the soft drink parlors, and the landlords, and the hotels and restaurants, and the draymen, and the bankers cut THEIR prices and catch up with the shoe men.

SOUTH PARIS, : : BRIDGTON

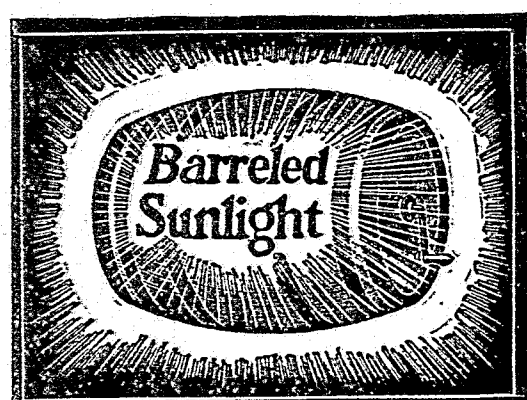

**Sunlight for Sanitation**

The following are some of the logical uses for Barreled Sunlight, the glossy white tile like finish paint for making rooms at home more cheerful at very low cost.

Bathrooms
Kitchens
Stairways
Laundry
Nursery
Pantries
Attics
Closets
Kitchen Closets
Garage

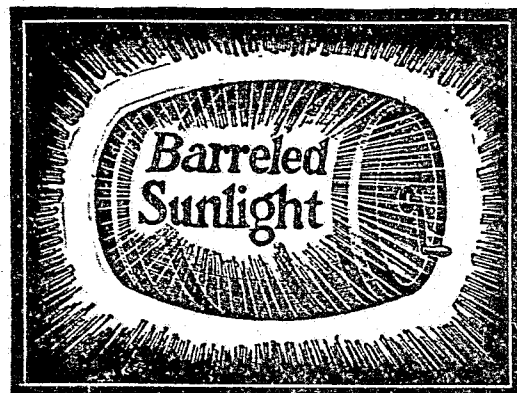

It is superior to other paints for these purposes as it is cheaper than enamel, easier to apply, does not crack or scale, can be washed and is absolutely sanitary as it contains no lead.

A SIZE FOR EVERY PURPOSE
Gallons, half gallons, quarts, pints, half pints

**If You Have't Tile Have A Tile Like Finish**

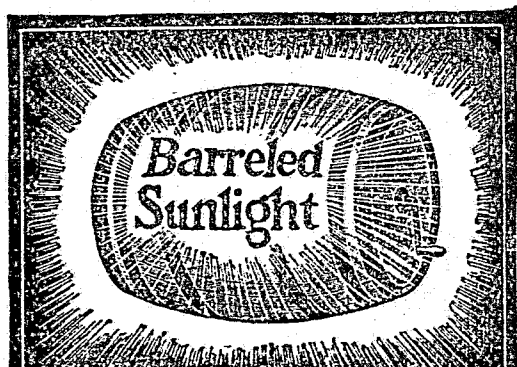

For bathroom walls, basements and such places white, spotless tile is without a doubt the ideal surface, but because of its cost is beyond the reach of the average householder. However, the same glistening, pure white finish can be obtained by anyone at the cost of an ordinary oil paint. Barreled Sunlight is that paint which presents a glossy tile-like surface—washable, sanitary and dirt resisting. It contains neither varnish or lead, is cheaper than enamel and is easier to apply. Flows out smoothly leaving no brush marks and will dry over night.

A SIZE FOR EVERY PURPOSE
Gallons, half gallons, quarts, pints, half pints

**In Shops and Work Rooms**

The use of Barreled Sunlight—Rice's Gloss White—in small shops and work-rooms offers the same splendid advantages that have benefited so many of the great modern factories. Better workmanship, less eyestrain, more cheerful surroundings, greater comfort for the workmen, and more order and neatness in the shop follow its application. Barreled Sunlight gives a permanent light reflecting finish that can be washed and will not need repainting for years. Because of the special process by which Barreled Sunlight is made it will remain white longer than any other similar product.

A SIZE FOR EVERY PURPOSE
Gallons, half gallons, quarts, pints, half pints

**IDEAL FOR THE HOME**

There are rooms where white walls and woodwork are peculiarly fitting, such as the kitchen, nursery and bathroom. Barreled Sunlight makes rooms bright and cheerful. The glossy tile-like finish of this oil paint can be washed and won't need repainting for years. Contains no lead, so is absolutely sanitary. Is cheaper than enamel and can be applied easier by the householder.

A SIZE FOR EVERY PURPOSE
Gallons, half gallons, quarts, pints, half pints

Two Men in Trouble

One man had an automobile and he thought it was wise to keep just a little gas in his tank. "Why keep more than I need?" he said.

One day he took an unexpected trip into the country and his gas gave out. He had to call for help.

The other man had a bank account. He said it was wise to keep just a little money in the Bank ready for his checks. "Why keep money lying idle?" he said.

A special opportunity came to this man, but he did not have the money needed to swing the deal. He asked for a loan but the opportunity was gone before he was ready to act.

MORAL—Keep plenty of gas in your car and a fairly good bank account if you want to be ready to solve your problems as they come.

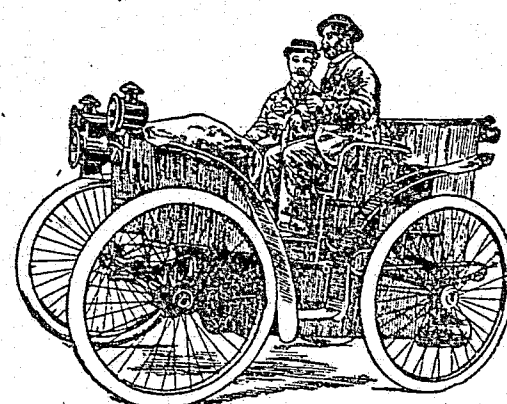

Think it over.

The Lure of BIRTH STONES

MAY

The special and traditional virtue of the emerald, the natural stone of May, is to reveal the truth or falsity of lovers' oaths, making only happy marriages possible. Furthermore emeralds sharpen the wits, confer riches and the power to foresee future events. Caesar carried one when he went to the Circus for it mirrored perfectly that which passed after off. Cleopatra was presented with an emerald bearing an engraved cameo of herself by which it is fabled she could read and control the thoughts of those who visited her court.

William Keen

The people of this community were shocked and saddened early Saturday morning to hear of the sudden death of one of our young men, Willie Keen. He had not been well for about three weeks, but no one realized the serious nature of his sickness, until Friday afternoon, when it was decided that an operation was all that would save him. He lived only about two hours.

William Keen was the only child of Edgar and Myron Brown Keen. His father died when he was quite young and he has always made his home with his mother, Mrs. Myra Jacobson. He was a quiet, manly boy whom all loved and respected. He would have been 19 in July.

Funeral services were held at the home Monday at one o'clock. Rev. Walter E. Brooks officiated. The funeral was in charge of Leroy Spiller of Norway, with his four uncles, John, George, Myron and Lewis Keen of Bridgton as bearers.

Friends from away who attended were Mrs. Lizzie Hall, North Conway; George and Roy Brown of Bretton Woods; N. H. George Keen, wife and two daughters of North Bridgton; Lewis Keen and wife and John and Myron Keen of Bridgton and Charles Brown of Lewiston.

He leaves a mother, three half sisters and one half brother. The donor's tributes were many and beautiful, bearing silent testimony of the love and respect of his many friends. He was laid to rest beside his father in Elm Vale Cemetery, South Waterford.

Scratches Cured in a Week!

Mr. B. J. Turner says: "My horse had a bad case of scratches on his left hind fetlock. The entire ankle joint was swollen, hot, feverish and so painful that when I would lead him out, he would not touch that foot to the ground. In under the fetlock it was cracked open so there was a raw sore clear across the back part of the joint. I got a box of Petro-Tan, and used according to directions. At the end of a week, the soreness and fever were entirely gone, and the raw, open sore was completely healed, leaving it soft and smooth to the touch. By this time, the swelling had almost entirely disappeared, and there was no lameness when I took him out. I have handled horses for the past fifty years, and doctored a good many for scratches, but I never used anything that begins to equal Petro-Tan. It relieved the soreness almost at once, and heals the quickest and with the fewest applications of anything I ever used on a horse, as I used only four applications to heal it up."

Petro-Tan will give equally good results for sore or cracked teats, collar boils, small cuts and other wounds of the skin.

It is without question the ideal treatment for cuts, burns, chapped hands, etc. on Humans. Especially desirable for children.

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and for years I was irregular. If I did any housecleaning or washing I would faint and have to be put to bed, my husband thinking every minute was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to an eight pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure, 'I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life.' Use this text-book at any time."—Mrs. ELIZABETH SMART, 142 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

SPANISH WAR VET HAD A CLOSE CALL

Troubles Were Getting Worse Every Day,
Says Kennedy—Tanlac Restores
Health

"I'm now enjoying good health for the first time in years, and don't hesitate to give Tanlac credit for setting me right," said William G. Kennedy, of Togo, Maine, a veteran of the Spanish American War.

"I suffered terribly from indigestion and stomach trouble and went to the hospital several times, but only got a little temporary relief. My trouble kept getting worse and at one time I thought sure I was a goner. I had no appetite at all, and even the little I did eat caused me awful acute pains. Gas formed in such quantities that it pressed around my heart until my breath was nearly cut off. The small of my back ached dreadfully and rheumatism in my arms and shoulders kept me in constant pain. I was so nervous the least little thing annoyed me and at night I was so restless and miserable I could scarcely sleep."

"I started taking Tanlac on the advice of a friend, and took only taken four bottles of the medicine to rid me entirely of all my troubles. Yes, sir, Tanlac has certainly done the work for me, for I now eat fine, sleep fine, feel fine and am enjoying the best of health."
